

Features

- The **Sauer ZKS-2033** Chain Beam Saw is a robust tool, made just for timber framers and log builders
- Cuts through up to 14" beams in a single pass
- Solid table keeps saw stable. With its swivel hinge it can be adjusted to cut angles up to 60 degrees
- Shavings always blown away leaving cutting point viewable at all times
- The bar rail can be tilted back, up to 10 degrees, to facilitate more efficient cuts
- Saw pulls forward allowing optimal cutting characteristics
- Solid metal enclosure cools better, does not misshape under heat, keeps motor bearings aligned
- The leading side of the chain on the cutting side is automatically lubricated to extend life, eliminates waste and prevents splatter of lubricant on work surface
- Low lubricant consumption through use of laser hardened Oregon bar set
- Large lubricant reservoir, eye glass shows oil level
- Powerful motor. Built-in brake
- High work-load capability
- Long life design makes the **Sauer ZKS-2033** extremely reliable over time, and an essential high production tool for all types of cut-off or trimming jobs

Specifications	
Rated input / Voltage	2100 W / 230 V
Idle speed	7100 rpm
Chain speed - at idle	17.5 m/sec (62.5 ft/sec)
- under load	14.5 m/sec (47.85 ft/sec)
Weight	19.8 kg (43 lbs)
Made in Germany	1-year guarantee

Included with saw:

Bar and chain-set
 Guide bar
 Fence

 Tools
 Bio-Oil
